That Applicants believe the original patent to be

inoperative or invalid by reason of (37 C.F.R. § 1.175(a)(1)):

(check all items that may apply)

- ☐ a defective specification
- ☐ a defective drawing
- ☒ the patentee claiming more or less than the patentee had a right to claim in the patent.

NOTE: *At least one error must be relied upon as the basis for the reissue. 37 C.F.R. § 1.175(a)(1).*

The patentee did not claim all that the patentee was entitled to. An Amendment After Allowance to add claim 25 (which corresponds to claim 3 of this reissue application) was mailed to the U.S. Patent and Trademark Office on May 29, 2001 and was received on June 1, 2001. A communication was mailed from the U.S. Patent and Trademark Office stating that the amendment in paper number 11 was disapproved because new claim 25 contains compounds which are not disclosed in the specification as claimed. Reconsideration and entry of this amendment under 37 CFR 1.312 was again requested on September 17, 2001 because the compounds in claim 25 are disclosed in the specification. In the remarks section of the Amendment After Allowance it is specifically pointed out that the compounds of claim 25 are preparations 9-19, 22-25, 28, 29, 31, 33 and 34. These were found on pages 41-46 and 48-55 of the specification. A copy of the Amendment After Allowance of May 29, 2001 and Request for Entry of Amendment After Allowance under 37 CFR 1.312 are attached.

The error listed above, which are being corrected, up to the time of the filing of this reissue declaration arose without any deceptive intention on the part of the applicant. (37 C.F.R. § 1.175(a)(2).

NOTE: *For any error corrected not covered by this declaration applicant must submit, before allowance, a supplemental declaration stating that every such error arose without any deceptive intention on the part of the applicant. 37 C.F.R. § 1.175(b)(1).*

Corporation

Type of assignee, e.g., corporation, partnership, university, government agency, etc.

NOTE: The Notice of April 30, 1993 (1150 O.G. 62-64) points out:

"The statement under 37 CFR 3.73(b) may be signed on behalf of the assignee in the following two manners if the assignee is an organization (e.g., corporation, partnership, university, government agency, etc.).

"(1) The statement may be signed by a person in the organization having apparent authority to sign on behalf of the organization. An officer (president, vice-president, secretary, or treasurer) is presumed to have authority to sign on behalf of the organization. The signature of the chairman of the board of directors is acceptable, but not the signature of an individual director. A person having a title (manager, director, administrator, general counsel) that does not clearly set forth that person as an officer of the assignee is not presumed to be an officer of the assignee or to have authority to sign the statement on behalf of the assignee. A power of attorney from the inventors in an organization to a practitioner to prosecute a patent application does not make the practitioner an official of an assignee or empower the practitioner to sign the statement on behalf of the assignee.

"(2) The statement may be signed by any person, if the statement includes an averment that the person is empowered to sign the statement on behalf of the assignee and, if not signed by a registered practitioner, the statement must be in oath or declaration form. Where a statement does not include such an averment, and the person signing does not hold a position in the organization that would give rise to a presumption that the person is empowered to sign the statement on behalf of the assignee, evidence of the person's authority to sign will be required."
